NWS Media CRM

Complete Feature Guide by Role

Version 1.0 **Date** March 29, 2026 **Owner** Maru Kane, CEO

React + TypeScript + Tailwind | Node.js + Express + PostgreSQL

Table of Contents

1 **Role Overview** — All five roles at a glance

2 **VA (Cold Caller)** — Lead generation & qualification

3 **Closer (Sales Rep)** — Deal pipeline & payments

4 **Ops (Project Manager)** — Delivery & client management

5 **Admin (CEO / Finance)** — Analytics, users & commissions

6 **Client (Portal User)** — Self-service portal & referrals

7 **Shared / Cross-Role Features** — Auth, notifications, sequences & more

8 **Role Access Matrix** — Complete permissions grid

1. Role Overview

The CRM has five distinct roles, each with its own dashboard and feature set.

V **VA** COLD CALLER
Generate and qualify leads via outbound calls
Login: Email + Password • **Home:** /va

C **Closer** SALES REP
Work deals through the pipeline to close
Login: Email + Password • **Home:** /closer

O **Ops** PROJECT MANAGER
Handle project delivery after a deal closes
Login: Email + Password • **Home:** /ops

A **Admin** CEO / FINANCE
Full system access, analytics & payouts
Login: Email + Password • **Home:** /admin

P **Client** PORTAL USER
External clients view project status, make payments, and submit referrals
Login: Magic Link (email) • **Home:** /portal/dashboard

2. VA (Cold Caller)

Lead generation, qualification, and handoff to closers

Routes: /va • /va/leads • /va/commissions **Nav:** Dashboard • My Leads • Commissions

Dashboard /va

FEATURE	DESCRIPTION
Total Leads stat card	Count of all leads assigned to the VA
Calls Today stat card	Number of call activities logged by the VA today
Qualified Leads stat card	Count of leads in *qualified* stage
Commissions Earned stat card	Sum of pending + paid commissions
Next Follow-ups list	Up to 8 leads sorted by soonest follow-up date, showing company, contact, stage, and date
View All Leads button	Navigates to /va/leads
Open button (per lead)	Navigates to lead detail

My Leads /va/leads

FEATURE	DESCRIPTION
Lead count	Total assigned leads displayed in subtitle
Stage filter	Dropdown: All, New, Contacted, Qualified, Nurture, Lost, Converted
Leads table	Columns: Company, Contact Name, ICP Score, Stage, Phone, Next Follow-up
New Lead button + modal	Create a lead: first/last name, company, email, phone, source, industry
Qualify button + modal	Hand off to closer: closer ID, pain point, budget min/max, timeline, handoff notes
Log Activity button + modal	Record activity: type, outcome, notes, optional call duration
Row click	Navigate to lead detail view

Data Scoping: VAs only see leads where `assigned_va_id` matches their user ID (enforced server-side).

Commissions /va/commissions

FEATURE	DESCRIPTION
Pending summary card	Total pending commission amount

FEATURE	DESCRIPTION
Paid summary card	Total paid commission amount
Commissions table	Columns: Deal/Company, Amount (USD), Status (badge), Triggered Date

Data Scoping: VAs only see their own commission records (enforced server-side).

Backend API Capabilities

ACTION	DESCRIPTION
List leads	Own assigned leads with filtering, sorting, and pagination
Create lead	New lead with automatic ICP scoring and round-robin assignment
Qualify lead	Convert lead to a deal and hand off to a closer
Import leads	Bulk CSV-style lead import
View lead detail	Individual lead with activity history
Update lead	Edit lead fields (contact info, stage, follow-up dates, tags)
Create activity	Log calls, emails, SMS, meetings, notes against leads
View commissions	Own commissions with pending/paid totals

3. Closer (Sales Rep)

Deal pipeline management, proposals, and payment collection

Routes: /closer • /closer/deals • /closer/queue • /closer/commissions

Nav: Dashboard • Pipeline • Qualified Leads • Commissions

Dashboard /closer

FEATURE	DESCRIPTION
Active Deals stat card	Count of deals excluding won/lost stages
Pipeline Value stat card	Sum of estimated value for all open deals
Won This Month stat card	Revenue from deals closed as won this month, with deal count
Pending Commissions stat card	Total pending commission amount
Kanban Board	Visual pipeline: Discovery, Proposal Sent, Contract Sent, Awaiting Deposit, Won — each card shows company, value, and days in pipeline
Open Pipeline Table button	Navigates to /closer/deals

Pipeline /closer/deals

FEATURE	DESCRIPTION
Stage filter	Dropdown: All, Discovery, Proposal Sent, Contract Sent, Awaiting Deposit, Won, Lost
Deals table	Columns: Company, Contact Name, Stage, Estimated Value, Close %, Created Date
Row click	Expand/collapse deal detail panel
Expanded detail	Company, contact info (name, email, phone), pain point, budget min–max
Open button	Navigate to deal detail view
Create Payment Link + modal	Generate link: amount, type (deposit/final/milestone), processor (Stripe/Square/PayPal), due date, description

Qualified Leads Queue /closer/queue

FEATURE	DESCRIPTION
Queue table	Columns: Company, VA Who Qualified, Pain Point, Budget Range, Handoff Date
Sorting	Newest handoffs first (sorted by created_at descending)

FEATURE	DESCRIPTION
Row click / Open Deal	Navigate to deal detail view

> **Data Shown:** Only deals in *discovery* stage (freshly qualified by VAs).

Commissions /closer/commissions

FEATURE	DESCRIPTION
Pending summary card	Total pending commission amount
Paid (All Time) summary card	Total paid commission amount
Commissions table	Columns: Deal/Company, Commission Type, Amount, %, Status (badge), Date

Backend API Capabilities

ACTION	DESCRIPTION
List deals	Own assigned deals with stage filtering and pagination
View deal detail	Individual deal with activities and payment links
Update deal	Edit stage, values, discovery/proposal/contract/deposit fields, loss details
Create payment link	Generate branded payment links (Stripe/Square/PayPal)
Void payment link	Cancel a pending payment link
Create invoice	Generate invoices against deals/clients
Create client from deal	Convert a won deal into a client record
Enroll in sequence	Add leads/deals to automated email/SMS sequences
View commissions	Own commissions with pending/paid totals

4. Ops (Project Manager)

Project delivery tracking and client management

Routes: /ops • /ops/projects • /ops/clients **Nav:** Dashboard • Projects • Clients

Dashboard /ops

FEATURE	DESCRIPTION
Active Projects stat card	Count of clients with project_status = in_progress
Revision Requests stat card	Count of clients with project_status = revision_requested
Deliveries This Week stat card	Clients with actual_delivery_date in the last 7 days
Clients In Progress list	Company name, contact name, and project status badge for all in-progress clients
View All Projects button	Navigates to /ops/projects

Projects /ops/projects

FEATURE	DESCRIPTION
Projects table	Columns: Client Company, Project Status, Current Phase, Expected Delivery, Revisions Used/Limit
Row click	Expand/collapse detail panel
Expanded detail	Contact name, email, project name, kickoff date, actual delivery date, contract value
Update Status + modal	Change status (not_started / in_progress / awaiting_approval / revision_requested / complete / paused) and phase (discovery / design / development / review / delivery)

Clients /ops/clients

FEATURE	DESCRIPTION
Clients table	Columns: Company, Contact, Services Contracted (badges), Total Paid, Balance Due, Project Status

Data Scoping: Ops users only see clients where `assigned_ops_lead_id` matches their user ID. This page is **read-only**.

Backend API Capabilities

ACTION	DESCRIPTION
List clients	Own assigned clients with project status filtering
View client detail	Individual client with projects and shared files
Update client	Edit project status, phase, delivery dates, revision limits, services, upsell notes
Create client from deal	Convert a won deal into a client with services and kickoff info
Create payment link	Generate payment links for clients
Create invoice	Generate invoices for clients

5. Admin (CEO / Finance)

Full system visibility, user management, analytics, and commission payouts

Routes: /admin • /admin/users • /admin/leads • /admin/deals • /admin/commissions • /admin/analytics

Nav: Dashboard • Users • Leads • Deals • Commissions • Analytics

Dashboard /admin

FEATURE	DESCRIPTION
Total Leads stat card	Organization-wide lead count
Total Deals stat card	Organization-wide deal count
Pipeline Value stat card	Sum of estimated_value for all open deals
Won Deals stat card	Total deals with stage won
Total Revenue stat card	Sum of all completed payment transactions
Pending Commissions stat card	Total pending commission amount across all users
Pipeline Summary	Badge counts per deal stage: Discovery, Proposal Sent, Contract Sent, Awaiting Deposit, Won, Lost

User Management /admin/users

FEATURE	DESCRIPTION
Users table	Columns: Name (+ username), Email, Role, Team, Join Date, Status, Profile Complete
Create User + modal	Full creation: name, email, password, role, team, phone, personal email, join date, emergency contact, weekly schedule
Row click → Edit User	Edit all profile fields, role (including Client), status, bio

All Leads /admin/leads

FEATURE	DESCRIPTION
Leads table	Columns: Company, Contact, Source, ICP Score, Stage, Assigned VA, Created Date

> **Read-only** organization-wide view. Admins see all leads regardless of assignment.

All Deals /admin/deals

FEATURE	DESCRIPTION
Deals table	Columns: Company, Contact, Closer Name, Stage, Value, Close Probability, Created Date

Read-only organization-wide view. Admins see all deals regardless of assignment.

Commissions /admin/commissions

FEATURE	DESCRIPTION
Total Pending / Paid cards	Aggregate commission summaries
Commissions table	Columns: User, Role, Deal Company, Type, Amount, %, Status, Triggered Date
Approve button (per row)	Move a pending commission to approved status
Checkbox selection	Multi-select approved commissions for batch payout
Payout (N) button	Process batch payout for all selected approved commissions

Analytics /admin/analytics

FEATURE	DESCRIPTION
VA Performance table	Columns: Name, Total Leads, Qualified Leads, Calls Made, Commissions Earned
Closer Performance table	Columns: Name, Total Deals, Won Deals, Revenue, Commissions Earned

Full Backend Capabilities (Admin-Only APIs)

API FEATURE	DESCRIPTION
User Management	Create, read, update users (all roles); manage teams
Lead Management	View all leads org-wide; qualify, import, and delete leads
Deal Management	View all deals org-wide; update deal stages and fields
Commission Management	View all commissions; approve; batch payout; CSV export with date/user filters
Client Management	View all clients; update records; create clients from deals
Payment Management	Create/void payment links; create invoices; view all transactions
Sequence Management	Create/edit/delete automated sequences; seed defaults; enroll leads/deals
Proposal Templates	Create/edit/delete proposal templates; seed defaults
Webhook Subscriptions	Create/manage outbound webhook subscriptions
Analytics — Overview	Aggregate stats: leads, deals, pipeline value, revenue, commissions
Analytics — Pipeline	Deal counts and values grouped by stage
Analytics — Team Performance	Per-VA and per-closer metrics
Analytics — Revenue Timeseries	Weekly or monthly revenue charts (up to 12 months)
Analytics — Conversion Funnel	Leads → Contacted → Qualified → Deals → Won (counts + %)
Analytics — Forecasting	Weighted pipeline, close rate, projected monthly revenue
Analytics — VA Effectiveness	Per-VA: leads, calls, qualified, conversion %, avg ICP score
Analytics — Closer Metrics	Per-closer: deals, win/loss rate, avg deal size, avg cycle days

Note: Admin users can also access all VA, Closer, and Ops dashboard pages in addition to their own admin section.

6. Client (Portal User)

Self-service portal for project visibility, payments, and referrals

Auth: Passwordless magic link via email **Routes:** /portal/login • /portal/auth/:token • /portal/dashboard • /portal/referral

Login /portal/login

FEATURE	DESCRIPTION
Email input	Client enters their email address
Send Login Link button	Sends a one-time magic link (valid for 15 minutes)
Check Your Inbox confirmation	Shown after successful link request with instructions
Staff Sign In link	Navigates to /login for employee access

Magic Link Authentication /portal/auth/:token

FEATURE	DESCRIPTION
Auto-verification	Validates token, issues 7-day JWT, redirects to dashboard
Error handling	Expired/invalid token message with link back to login

Dashboard /portal/dashboard

FEATURE	DESCRIPTION
Welcome message	Personalized with contact name and company name
Project Timeline	Visual 4-step progress: Kickoff → Design → Development → Launch
Total Paid	Aggregate amount the client has paid
Balance Due	Remaining balance owed
Make Payment button	Opens the first pending payment link for the client
View Files quick action	Navigate to file listing
Request Revision quick action	Navigate to revision request form
Submit Referral quick action	Navigate to /portal/referral
Recent Files list	Up to 6 files shared with the client (filename, date, type badge)
Logout button	Clears portal session and returns to login

Referral Program /portal/referral

FEATURE	DESCRIPTION
$500 credit reward	Program terms: earn $500 account credit per successful referral
Referral form	Fields: Company Name (required), Contact Name, Email, Phone, Notes
Submit Referral button	Creates referral record and optionally a lead in the system
Submit Another option	Reset form after successful submission
Back to Dashboard	Return to portal dashboard

7. Shared / Cross-Role Features

Features available to multiple or all staff roles

Authentication & Session

FEATURE	AVAILABLE TO	DESCRIPTION
Register	VA, Closer, Ops	Self-registration with role selection
Login	All staff	Email/username + password
Token refresh	All staff	Automatic JWT renewal
Logout	All staff	Session termination
Profile (/me)	All staff	View own user profile

Notifications

FEATURE	AVAILABLE TO	DESCRIPTION
List notifications	All staff	View latest 50 notifications (own only)
Unread count	All staff	Badge count for unread notifications
Mark as read	All staff	Mark individual or all notifications as read

Activities

FEATURE	AVAILABLE TO	DESCRIPTION
List activities	All staff	Filterable by lead, deal, client, or activity type
Create activity	All staff	Log calls, emails, SMS, meetings, and notes

Sequences (Automated Outreach)

FEATURE	AVAILABLE TO	DESCRIPTION
View sequences	All staff	List all sequences and their steps
Enroll lead/deal	VA, Closer, Admin	Add a lead or deal to an automated sequence
Cancel enrollment	All staff	Stop an active sequence enrollment
Create/edit/delete	Admin only	Full sequence management
Seed defaults	Admin only	Initialize built-in sequence templates

Proposal Templates

FEATURE	AVAILABLE TO	DESCRIPTION
View templates	All staff	Browse active proposal templates
Create/edit/delete	Admin only	Full template management
Seed defaults	Admin only	Initialize built-in templates

Payment Links & Invoices

FEATURE	AVAILABLE TO	DESCRIPTION
View payment links	All staff	List payment links with deal/client/status filters
Create payment link	Closer, Ops, Admin	Generate branded links (Stripe/Square/PayPal)
Void payment link	Closer, Admin	Cancel a pending payment link
View invoices	All staff	List invoices
Create invoice	Closer, Ops, Admin	Generate invoices
View transactions	Admin only	Full transaction history
Public payment page	Anyone	Branded page accessed via unique slug (no auth)

GDPR / Data Privacy

FEATURE	AVAILABLE TO	DESCRIPTION
Data export	All staff (own data)	Portable export of profile, leads, activities, commissions
Account deletion	All staff (own account)	Anonymize personal data

Webhooks

FEATURE	AVAILABLE TO	DESCRIPTION
Inbound (Stripe, etc.)	System (no auth)	Payment confirmations, refunds, lead ingestion
Outbound subscriptions	Admin only	Manage webhook URLs for CRM events

8. Role Access Matrix

Complete permissions grid — which role can do what
