Low SEO Score (52/100)
Missing SEO fundamentals (meta tags, headings, structured data) that help Google rank you above competitors.

Not Mobile-Friendly

What You'll Gain

📈 **18–40 new leads per month** — From Google searches, Maps clicks, and organic traffic. Based on 5,500+ monthly searches for "dentist" in Austin and a 4–6% website conversion rate.

💰 **$14,400+ in additional monthly revenue** — At ~$800 average new-patient value (first year), 18 new patients/month = $14,400/month. Lifetime patient value is $5,000+ over 5 years — making each new patient worth far more.

🎯 **Page 1 Google ranking for local searches** — SEO delivers 19.9x return on investment vs 4.4x for paid ads. Unlike ads, organic rankings compound over time and don't stop when you stop spending.

📱 **88% of local mobile searchers call or visit within 24 hours** — A mobile-optimized site captures high-intent customers who are ready to buy right now. Your competitors are getting these calls today.

💪 **Competitive edge in Austin** — You have 695 reviews and a perfect 5.0★ rating — that's remarkable for a dental practice in Austin. But your Wix site loads slowly (34/100) and isn't mobile-friendly, meaning potential patients searching on their phones bounce before they book. A fast, custom site would convert those visitors into appointments.

⏱ **ROI within 2–3 months** — Within 2–3 months, the new site pays for itself. Every new patient after that is revenue you weren't getting before — and they keep coming back for years.
